ADMINISTRATIVE OFFICE OF THE COURTS

INFORMATION SERVICES DIVISION

Court Receives Case Summary Query (CAS801)

Exchange Description

Integration partners use this NIEM-based data exchange to send a request for case summary information to the trial court. The query response is returned immediately to the requesting agency system. If a case exists that matches the search criteria, an integration partner can use this data exchange to determine the following:

- Case participants and contact information
- Bail
- Charges and sentences
- Next scheduled hearing for a specific case
- Current case status for a specific case
- Case filing rejection reason

If a case does not exist that matches the query criteria, no case summary information is returned.

The request message from the integration partner contains the query parameters (e.g., court case number, participant).

The response message from the trial court contains the case summary result.

Business Response Exchanges

The business response refers to any subsequent exchanges that may occur as a direct result of this exchange.

- There are no business responses to this data exchange.

PROBABLE INTERESTED INTEGRATION PARTNERS

- Attorney General

RELATED EXCHANGES

Related data exchanges are preceding or subsequent data exchanges that may be used by an integration partner as part of the overall business process related to this exchange.

- Court Receives Search Query (APP801), which may be used by the integration partner prior to this exchange to request case identification information about a specific participant from the trial court.

For more information about this and other data exchanges, contact integrationpartners@jud.ca.gov

Error Handling

If the trial court does not successfully receive and process the request message, the integration partner will receive an error message with an error code and error reason.

Additional Information

- A single exchange message is sent for each case summary request.
- The response message to this exchange is sent immediately upon receipt and processing by CCMS.
- Both the success and error response messages must be sent as separate messages using the formats defined in this exchange.
